PROFESSOR CASTOR IS DROWNED

Instructor in Theological Seminary Loses His Life in Kelsey Creek

Vacation Trip for Berkeley Family Ends in Tragedy at Resort

BERKELEY, July 15.—Prof. George De Witt Castor, professor of New Testament literature and registrar of the Pacific Theological Seminary of this city, was drowned yesterday near Kelseyville, Lake County. News of his death was received late last night in a telegram to President Charles Sumner Nash.

Prof. Castor had but recently returned from Kansas City, where he went at the close of the last semester of the seminary to visit his parents. In the early part of last week, accompanied by his wife and adopted daughter, he left for an outing in Lake County, and the adjoining country. This was the last heard from him until the arrival of the telegram informing President Nash of his death.

President Nash left this morning for Kelseyville to assist the widow in taking charge of the remains. He is expected to return from there with the body tomorrow morning.

Following President Nash's departure Mrs. Nash made an effort to locate the members of the faculty at the seminary to inform them of the death of their colleague. All of the faculty members are out of the city at different places, but are expected to return at once upon receipt of the news.

Dr. Castor was a comparatively young man and was graduated from the Yale Divinity School of Yale University ten years ago. For a time thereafter he served in the faculty of the divinity school as an associate professor. In 1907 he came to Berkeley and entered the faculty of the Pacific Theological Seminary. He was one of the most popular members of that faculty and his death is mourned especially by the alumni thereof and by his fellows in the faculty and in the Congregational faith in this vicinity.

BIG GROWTH OF COUNTY SHOWN

Assessment Figures Fix Gain at More Than Sum of \$35,500,000

Total Value of Property Is Placed by Horner at \$236,856,306

The assessment rolls of Alameda County for the year 1912, as submitted this morning to the Board of Supervisors, show a gain over last year of thirty-three and a half millions of dollars. No greater proof of the astounding growth of the great east bay section could be offered than the statistics compiled by the staff in the office of County Assessor C. F. Horner.

The grand total assessed valuation of the county is placed at \$236,856,306. For 1911 the roll read only \$203,300,823. The Board of Supervisors this morning expressed the opinion that Alameda County has shown a greater per centage of gain than any other county on the Pacific Coast.

American Four-Men Team Wins 1600-Meter Relay Race

STOCKHOLM, July 15.—America won first place in two of the leading events at today's Olympic games, the 1600 meter relay race and the deathly and second place in the 800 meter swimming final, thus scoring altogether eight points. Sweden added 19 points to her total; Finland 13, England 6, Germany 5; Australia, which won the swimming event, 3; France 2, and Austria 1.

A squad of Boy Scouts Indian school performed a remarkable feat in winning the deathly and proved his general all around ability as an athlete.

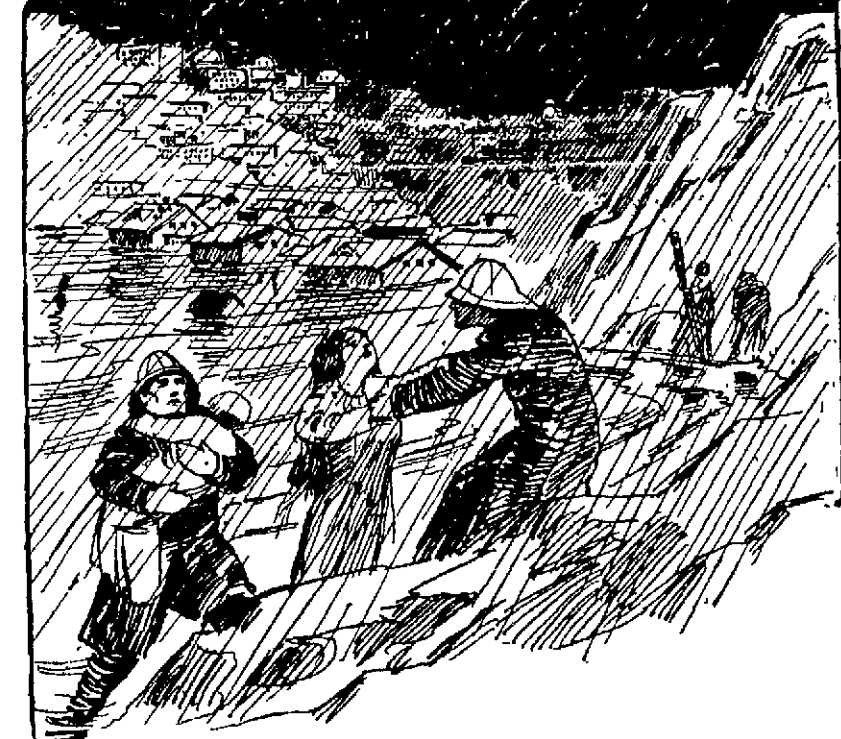

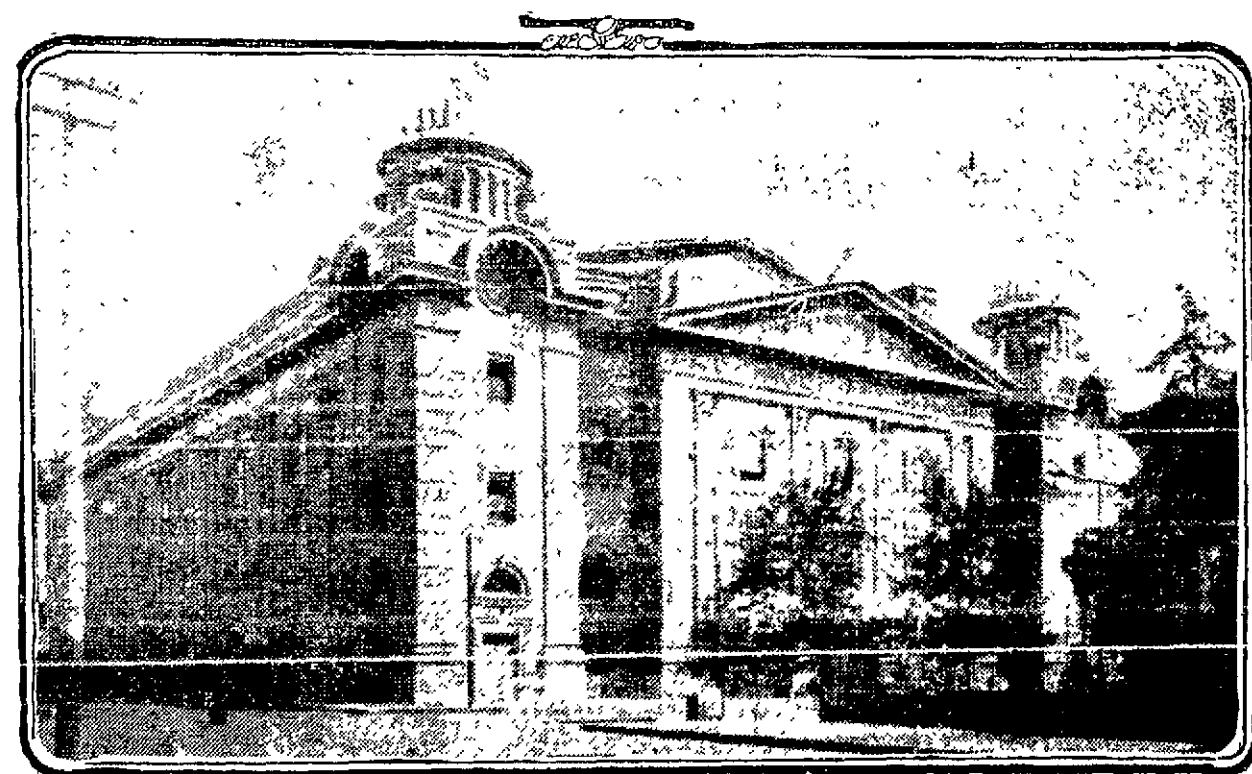

King Gustave at 5 o'clock this afternoon presented the prizes to the winners of gold, silver and bronze medals won in the various competitions. The scene was a very brilliant one as thousands of athletes from many different nationalities gathered in front of the stand.

STOCKHOLM, July 15.—Gloom was cast over the spectators and participants in the Olympic games today when it became known that the only Portuguese runner in yesterday's historic Marathon race, F. Lazaro, died in the hospital this morning. He suffered from sunstroke in yesterday's race and fell out at Sifferal on the return journey after running nineteen miles. He was overcome at about the same point at which Kolehmainen, the Finn, Michael J. Ryan, Irish-American Athletic Club, and J. Corkery, Canada, dropped out.

A squad of Boy Scouts, who were patrolling the course to help any runners in distress, picked up the Portuguese and telephoned for an ambulance. In the meantime Lazaro was taken to a medical station, several of which had been erected along the route.

At Last We Know What Is a Real 'Progressive'

ALBANY, N. Y., July 15.—In response to a New York newspaper's request for his definition of the term "progressive," Governor John A. Dix wrote out the following:

"A progressive is one who, with consistency and fairness, achieves reforms for the benefit of his fellow men. Industrially, among other things, progressiveness consists in furnishing greater opportunities for skill and making conditions for the safety, advancement and contentment of the individual. Politically, true progressiveness is not a mere promise but is the real performance of pledges made to secure needed reforms, resulting in wise laws designed to meet new conditions, but leaving the fundamental principle of representative government unchanged."

REFUGEES IN CARE OF CITY

Cloudburst Sends Cherry Creek Out of Bank, Causing Great Damage

DENVER, July 15.—Several hundred men, women and children are homeless, many are dead and injured and \$2,000,000 worth of property is in ruins here today as the result of a cloudburst last night which poured a solid wall of water down the shallow bed of Cherry Creek, which runs through the city.

The dead: FRANK HILL, MRS. LYDIA BICKFORD, aged 85 years. The missing: ZOE WALLACE, ALBERT CLAY.

The injured, all of whom were taken to the county hospital: Mrs. J. G. Stafford, cut and bruised; Mary Higgins, cut and bruised; Fred Emerson, dislocated shoulder; Lulu Turner, cut and bruised; Rudolph Rian, police officer, nearly drowned while trying to rescue a woman.

While the foregoing list of casualties is believed to be practically complete, accurate figures on property damage still are incomplete and may run considerably higher. Individual estimates run as high as \$5,000,000.

Practically the entire wholesale and warehouse districts were flooded and exact figures on this loss cannot be given until the basements have been pumped out and inventories taken. Semi-official figures compiled at noon today include damage items as follows:

City streets and sewers, \$500,000. Stocks in wholesale district, \$1,000,000. Tramway, business and residence property, \$500,000. Total \$2,000,000.

The city auditorium is a refugee camp. At dawn 500 homeless men, women and children were gathered there. Twenty-five babies from six months to six years of age are in the care of the police matron.

Mayor Arnold organized relief parties at dawn to begin the search of the course of the flood, which is a trail of wrecked dwellings. The chamber of commerce has organized a relief subscription.

SHADOW ON WRECK'S DEAD

Engineer, Killed in Collision,
May Be Blamed for Tragedy
in Illinois

All of Those Injured on Road
to Recovery; 13 Persons
Meet Death

CHICAGO, July 15.—According to early reports today all of the injured taken to hospitals as a result of the collision between the Chicago, Burlington and Quincy overland limited and a mail train at Western Springs yesterday morning, in which thirteen persons were killed and 13 injured, are now in a condition which indicates that they will recover. Twelve of the injured were taken to St. Anthony's Hospital and after an early examination pronounced that none had suffered injuries which would be likely to cause death. Of the dead three remained unidentified. These were the bodies of two women and a girl. The women were both of middle age and the girl about 9 years old. An inquiry will be made today in an effort to fix the blame for the wreck. One will be made by Coroner Hoffman of Cook county and the other by the railroad commission which will meet in Chicago and go to the scene of the wreck and to the office of the road.

TRY TO FIX BLAME.

Conduct of three persons, one of which is dead, will be inquired into in an effort to fix blame for the wreck. The acts of George Bronson, the engineer of the mail train, who was killed; Mrs. F. A. Wilcox, towel operator and flagman John Woodruff of the Overland are those to be questioned.

Both Mrs. Wilcox and Woodruff have said they did their duty—the former by placing block signals and the latter by placing the train.

Only one thing has been definitely established regarding the cause of the wreck and that is that a dense fog played a big part in the disaster.

THE DEAD.

Francis A. Barclay, 20 years, Ellings, Mont.

George Bronson, 41 years old, Gillesburg, Ill., engineer train No. 8.

A. P. Bunch, 30 years old, Chicago, negro porter of Pullman car on train No. 2.

Mrs. C. M. Hart, wife of a physician at Canton, Ohio.

Mrs. E. G. Pohlmann, San Francisco, 40 years old, Chicago.

Mrs. E. Stearns, 40 years old, Chicago.

G. W. Tudor, 40 years old, Leavenworth, Kan.

Lillian Kelley, 22 years old, Boise, Idaho.

Unidentified woman, 45 years old, gray eyes, black and white striped waist and blue skirt.

Unidentified woman, 24 years old, brown hair, blue eyes, two gold crowns, brown and white striped dress.

Unidentified girl, 9 years old, light hair, gold band ring, blue and white dress.

Unidentified boy, 4 years old, blue dress, red stockings and black sandals.

SERIOUSLY INJURED.

Among those injured were:

Warren P. Dudley, 14 Oak street, Belmont, Mass.

Mrs. Bernice M. Dudley, wife of Warren P. Dudley, compound fracture right leg.

John W. Flack, Cincinnati, right leg fractured, scalp wound.

John Flack, Cincinnati, severe scalp wound.

E. G. Pohlmann, San Francisco, right arm and right leg broken.

Rev. S. H. Scholz, St. Francis Hospital, Columbus, O., back injured and head wounded.

Miss Katherine Griswold, Milwaukee, spine injured and knee cut.

Miss Lillian Kelley, Chicago, shoulders dislocated and hand cut.

William McGinnis, 11 Kalmar street, Denver, head and face severely cut.

Mrs. E. W. Francis, Bedford, Ind., severely bruised about body.

O. R. Marsh, Chicago, back injured.

John E. Pohlmann, Chicago, back injured and hand cut.

H. P. Joy, Chicago, arms and hands cut and bruised.

Mrs. C. M. Hart, Girard, O., spine injured and several ribs fractured.

Fire broke out in the wreckage almost immediately. Rescuers hurried by the pliers of men and women plied beneath the crumpled steel and splintered wood, pulled many of the injured from the oncoming flames.

George Bronson of Galeburg, Ill., the engine driver on the mail train, stuck to his post and went to his death. A fog-bellied red signal had appeared ahead of the limited train shortly before the crash. The train had proceeded 800 yards beyond the signal when the engine driver, responding to the signal, could bring it to a stop. The conductor, alerted and was going ahead to see what was the matter. He faced about just in time to see the mail train plow into the overland.

When the physicians reached the scene many of the injured had been given temporary aid, but their suffering was sickening. One cry that greeted the ears of the physicians was this:

"Don't touch me, doctor. Help my husband."

Delaying the School Buildings.

Some old buildings situated on lots purchased for school sites have been sold at auction, which is encouraging in a way, but not as encouraging as it might be. It would give the public a great deal more satisfaction to be informed that work had been actually begun on some of the new buildings authorized by the last school bond issue.

Money was voted a year and a half ago to purchase sites and erect a score of new schoolhouses. The Board of Education was in a great hurry to get the bonds voted on the ground that more school room was an urgent, immediate necessity.

But after the bonds were voted the necessity did not appear so urgent. Work has not been commenced on a single one of the new buildings. No contracts have been let. So far as we know working plans have not been completed for a single one of the new schoolhouses—if there have, no official announcement has been made of the fact.

The first move toward erecting the new schoolhouses was an attempt on the part of the Board of Education to grab Lakeside Park for a building site. The park was to be destroyed that the board might have more to spend on buildings.

Then an effort was made to change the sites on which some of the new buildings were to be located, and an ambitious scheme was launched to create a new grade that would add enormously to the expense of maintaining the school department. Also, an attempt to consolidate the manual training school with the Central High School, or rather to make the former a side issue or adjunct to the former. The object of this scheme was to appropriate for the Central High School the money voted for the manual training school.

In the meantime actual work on the new schools has been delayed. There has been a great deal of fussing and much talking, and not a little scheming, but little else has been done beyond selling the old buildings on school sites. It is a pity the school board and an architectural expert or two could not be traded off with the old shacks.

Roosevelt says Lorimer was expelled from the Senate because he refused to dine with him at a club dinner in Chicago. This may have prompted the Colonel's followers in the Senate to vote against Lorimer, but it did not influence the other members of that body who voted for expulsion. But if Lorimer was expelled because Roosevelt refused to dine with him, what shall be done with Boss Cox of Cincinnati, with whom the Colonel dined at the home of his son-in-law? Cox was under indictment for a criminal offense, and his reputation is certainly no better than Lorimer's; yet Roosevelt welcomed him cordially and dined with him in friendly intimacy. Surely Cox ought to be in the Senate in recognition of the favor the Colonel showed him. Cox is the man who nominates the Hon. Nick Longworth, Roosevelt's son-in-law, to Congress, and hence is to be styled as a leader instead of being called a boss.

Consequences of Recklessness and Inexperience.

Self-interest as well as the spirit of humanity should exhort men who manufacture and sell automobiles to discourage the reckless and careless handling of motor cars, especially by inexperienced persons, who do not understand the workings of machinery and who are indifferent to consequences. Every bad accident hurts the automobile trade. Timid people are deterred from buying or riding in motor cars when they see accounts of shocking accidents in the newspapers. It is safe to say that nine-tenths of the automobile accidents are due to inexperience, carelessness or recklessness of chauffeurs. Drink is responsible for many of them. Garage owners should be more careful in selecting men to take out cars. Driving a motor car calls for a clear head and a ready hand. Only sober, reliable men with experience in guiding a machine and a proper sense of responsibility should be selected for the task. Reckless speeding is something always to be reprehended, for it endangers others more than the occupants. Often recklessness degenerates into criminal carelessness and wanton brutality. Much of the hostility motorists encounter is due to a certain class of chauffeurs, who injure the motor car business and cause people who go about quietly with a proper regard for their own safety as well as the safety and rights of others a great deal of unnecessary annoyance. The abuse of the motor car is one of the chief drawbacks to the automobile business. Auto salesmen and garage owners can benefit their business by leading a movement against reckless speeding and trusting machines to inexperienced hands.

Dodging the Issue.

A San Francisco paper that has been harping on annexation for the last two or three years begins a characteristic editorial with this characteristic statement:

"The Chronicle desires to keep constantly before the people the fact that there is not and never has been circulated any petition to place upon the ballot a law to consolidate San Francisco with any other city."

A more uncandid and deceptive statement could hardly be framed. The sole object of the consolidation amendment which the electors of the State are asked to approve at the coming election is to permit San Francisco to step outside her county lines and annex cities and towns situated in other counties. The passage of that amendment will enable San Francisco to continually harass her neighbors with annexation schemes put forward under the specious guise of consolidation. It will enable San Francisco to put her neighbors to the expense of holding frequent elections to preserve their municipal independence and the autonomy of their counties.

The amendment was framed in San Francisco by an associ-

tion of individuals formed for the express purpose of annexing parts of Alameda, Contra Costa, Marin and San Mateo counties. It was framed to clear away the constitutional obstacle to their scheme.

The Chronicle palters with facts and juggles with words in an effort to disguise the character of the scheme. It is an annexation job pure and simple, and that is the only reason why it was ever devised. It was hatched in San Francisco and is now being financed and directed from that city under the name of the "Greater San Francisco Association." Reduced to plain terms it is an appeal to the voters of the State to sanction a piratical invasion by San Francisco of the rights and liberties of the people residing in the towns and cities in contiguous territory. The people of the State are asked to withdraw the constitutional barrier which at present protects Alameda, Contra Costa, Marin and San Mateo from the contemplated spoliation and dismemberment.

It is a job devised in greed and selfishness and promoted with unscrupulous mendacity, hence it is scarcely to be wondered at that the Chronicle shrinks from the naked truth and beats about the bush with casuistical explanations which do not explain and which are not intended to explain, but which are framed to conceal and glose over an unfair purpose.

Summer Campers and Forest Fires.

The summer season is at its height, and the mountains are full of campers. Forest fires are to be expected. A lighted match dropped carelessly in the dry grass is likely to start a destructive conflagration. Usually when a forest fire starts some thoughtless person is to blame for it.

The experienced woodsman is always careful about fire; he knows that it destroys forests, drives away the game and endangers life, therefore he takes such precautions as are necessary to prevent it getting beyond control. The Indian never fires the forest. To him a forest fire is a calamity, and he is careful to extinguish fires when breaking camp.

But the summer camper is neither an experienced woodsman nor an Indian. He scorns precautions and takes little thought of consequences. He lights his pipe or cigarette wherever and whenever the fancy seizes him and drops the half-burned match into the stubble and goes his way. When the forest is aflame he is quite sure that he did not fire it. Yet many of the most disastrous fires which have swept the mountains can be traced to a burning match or cigarette carelessly dropped in the dry grass, or to fires left burning in abandoned camps. A little care and a little forethought would prevent such calamities. The summer camper especially should be careful about fire, for fire destroys the beauty spots so restful and inviting during the vacation season. It scars and disfigures nature, and changes the green garb of the hills into the sombre garments of mourning and desolation. It turns to ashes and bitterness the paradise of the summer camper.

Then be careful of fire when you are in the hills and fields. Remember that a single match or a random brand left burning in the bush may spread blistering ruin over a whole township, doing damage that nature cannot repair in a lifetime.

The Stockton Independent is in sad need of a lesson in local geography. A few days ago it printed a supplement entitled "Southern California Resorts." Among the "Southern California Resorts" illustrated pictorially was the Big Trees near Yosemite Valley, the beach at Santa Cruz, and the Sacramento river at Soda Springs. Why Mount Shasta and the Geysers should have been omitted from this list of Southern California attractions is not explained. The whole thing is gotten up to convey the idea to the reader unacquainted with the geography of California that Yosemite Valley, the Big Trees, the gorge of the Sacramento river, Santa Cruz and Lake Tahoe are adjacent to Los Angeles, and that the tourist from afar should go to Los Angeles to conveniently reach those famed spots.

DESTINN ON SINGING

"To know more than one language, as for example, aside from the fact that it is necessary in these days for an opera singer, is a matter of culture as well as a practical advantage says Emma Destinn, in Harper's Bazar. Here in America you have less need to use and less opportunity to practice foreign languages than we have in Europe. But you should not neglect them. I, as a Bohemian, living in a German-speaking country, was naturally born to the literature of two races, also all well-educated Austrians know French. I did not, therefore, have to acquire these things when I came to prepare for my profession, but the girl who expects to sing in opera cannot begin too soon to utilize all her opportunities in this respect. She should not be satisfied with 'rough' knowledge of German, French or Italian, to sing in those languages. It will make it a thousand times more easy for her to learn her lines if she really knows the language.

"There are girls studying for opera, I am told, who are not familiar with the lives of the composers or with any of the things that are associated with their art. But in what a way will we live our lives if we think only of the things of the operatic life? I cannot tell you how much happiness I have had from my books which I have long been interested in collecting. I even bring an inconvenient number of them to America with me, and there are hundreds more in Prague.

"A girl who goes to study music in an European capital should not neglect the art galleries. She will get from the old pictures ideas for her costumes, aside from the culture that will come from familiarity with the great art of the past. She should read the literature that is connected with the stories of the operas, that her mind may be full of the subject, and that she may be acquainted with the customs and costumes of the period.

"I think, too, it would be a good thing for the music student to have friends who are winning some other branch of art, rather than that she should all day long breathe the atmosphere of the conservatory or the opera house. If she is not wasting time or losing anything by taking some hours to acquaint herself with other forms of art. If Wagner had had only the purely musical interest he would never have founded the music drama.

"I was more than fortunate in my home life. My father was able to give me opportunities. He was a man of cultivated tastes, interested in all the arts, so I grew up in the artistic atmosphere. Not only musicians, but writers and actors came to our house. No doubt I had a voice although she was not a professional. Then my teachers—what an interesting artist she was—taught us, for she is still living. She is a Viennese and to her I feel that I owe almost everything.

"Perhaps the very geographical position of Austria enables it to offer the student advantages of both Italy and Germany. In any case both were combined in the technique and theory of my teacher. Personally I consider Austria the best country in which to study music. And how full it is of the artistic atmosphere how appreciative the people are musically. When it comes to the question of advancement, however, and of acquiring repertoire, I should say that Germany offered the best opportunity to the young singer. And after Germany, Denmark. In France, where the chances for the foreigner are supposed to be smaller, the Opera Comique offers a splendid opportunity in dramatic training, for the French people lay great emphasis on that side of opera."

CONQUERING MCKINLEY

After prior failures, Professor Herschel C. Parker of Columbia University is reported to have climbed Mount McKinley in Alaska. He is already one of the most experienced of mountain-climbers, having scaled half a dozen of the Canadian Rockies after an apprenticeship on the classic stunts in Switzerland.

While he permitted the Duke of Abruzzi to conquer Rorua old Mount St. Elias in 1897, America was for a time credited with the more notable conquest of Mount McKinley. The credit mark was indignantly erased when certain revelations in the life of Dr. E. A. Cook were made and his book on the subject was removed from the authentic bibliography of mountain-climbing. Since then, alpenstock experts all over the world have directed a fascinated attention at this tempting peak. But five mountains higher than its computed altitude have ever been climbed, two in the Andes and three in the Himalayas. By its 29,000 height in the air, Mount Blanc, the Jungfrau and the Matterhorn are dwarfed, none of the three exceeding 16,000 feet.

The first on the top of Mount McKinley and the roof of the continent will be of great celebrity in the Alpine guild. Repeated past fiascos, the very impotence of Dr. Cook itself showing that the difficulties are enormously greater than was even supposed, will add distinction to the feat. Hope that the report as to Professor Parker is true is strengthened by information as to his conditions and knowledge of Mr. Parker's elaborate preparations and perseverance. The mildness of the past winter in Alaska may have modified former difficulties. Late in April, the date of the last prior report from him, he had already made encouraging progress and believed he would succeed.

After Mount McKinley the great mountain-top feat will remain in the southern hemisphere, in South America, India and the newly discovered ranges of the Antarctic continent.—St. Louis Post-Dispatch.

GROWS HAIR ON BALD HEADS

Resorcin is one of the latest and most effective germ-killers discovered by science, and in connection with Beta Naphthol, also a powerful antiseptic, a combination is formed which destroys the germs, which rob the hair of its nutriment, and thus creates a clean and healthy condition of the scalp, which prevents the development of new germs.

Pilocarpine is a well-known agent for restoring the hair to its natural color, where the loss of color has been due to disease. Yet it is not a coloring matter or dye.

The famous Rexall "93" Hair Tonic is a combination of Resorcin, Beta Naphthol and Pilocarpine, combined with pure alcohol, because of its cleansing and antiseptic qualities. It makes the scalp healthy, nourishes the hair, revitalizes the roots, supplies hair nourishment and stimulates a new growth.

We want you to try a few bottles of Rexall "93" Hair Tonic on your personal guarantee that the trial will not cost you a penny if it does not give absolute satisfaction. That's proof of our faith in this remedy and it should indisputably demonstrate that we know what we are talking about when we say that Rexall "93" Hair Tonic will grow hair on bald heads, except of course where baldness has been of such long duration that the roots of the hair are entirely dead, the follicles closed and grown over, and the scalp is glazed.

Remember, we are basing our statements upon what has already been accomplished by the use of Rexall "93" Hair Tonic, and we have the right to assume that what it has done for hundreds of others it will do for you. In any event you cannot lose anything by giving it a trial on our liberal guarantee. Two sizes, 50 cents and \$1.00. Remember, you can obtain Rexall Remedies only at The Owl Drug Company, San Francisco, Los Angeles, Sacramento, Portland, Seattle, Spokane.

VESSELS COLLIDE IN CLEAR WEATHER

The Steamer Roanoke and the Schooner Dauntless Meet Off Heads.

SAN FRANCISCO, July 15.—An unusual collision because of the fact that the weather was clear as a bell occurred off the Heads early yesterday morning, when the schooner Dauntless and the North Pacific Company's liner Roanoke came together.

The Dauntless, a great gash in her starboard side extending for twelve feet below the fore rigging, was towed into port by the tug Sea Prince, which was summoned to her assistance by the Roanoke's wireless operator.

Both vessels went to sea late Saturday, the steamer bound for San Diego in command of Captain Furrington and the windjammer, in command of Captain Peterson, destined for Gray's Harbor, where she was to load lumber for the E. K. Wood Company.

The collision took place off the Black buoy, and was the result, according to Mate Ingram of the schooner, who was on duty, of there being no lookout forward on the steamer. Great excitement prevailed among the liner's passengers, who were roused from their slumbers by the shock, but they were quickly pacified. Captain Peterson's wife and baby were on the Dauntless with him.

After the accident the Roanoke continued her run south, while the Dauntless came in for repairs.

SCHOONER ASHORE NEAR CLIFF HOUSE

Sunday Crowd Views Wreck of Hugh Hogan; Vessel Is Floated.

SAN FRANCISCO, July 15.—The three-masted schooner Hugh Hogan, which went ashore a mile and a half south of the Cliff House yesterday morning stuck fast on a sand bar all day yesterday and formed an exceptional attraction for the Sunday crowd. Thousands of people sat along the beach and watched the puffing tugs attempt to drag the big schooner from her resting place upon the beach. The tug Sea Prince and Sea Queen pulled away at one big hauler failed to budge the vessel at high tide yesterday afternoon, but at 5 o'clock last night she was dragged into deep water.

The Hugh Hogan was towed to sea Saturday afternoon by the Sea Queen and dropped when well outside. Captain Peterson said yesterday that he did not believe he had been taken far enough out, but that point is not in question, for F. W. Carey, the owner, says it is up to the captain of the schooner to see that he is out far enough before he lets go of the tug.

After the tug had steamed back inside, and the schooner was left alone, Captain Peterson showed his cabin to the Oquellie river, Oregon. The vessel was light, having discharged a cargo of lumber, and was on her way to Oregon for another haul.

Just about the time she got underway on a northwest tack the wind died down to almost a breath. Slowly the vessel began drifting toward shore in a southeasterly direction. What little wind there was veered and aided in sending the vessel on toward shore. The tide turned and aided still further in carrying the ship shoreward.

Captain Peterson dropped the anchor as soon as he saw the schooner was drifting. It held for but a short time then dragged along the sandy bottom.

The strong flood tide combined with the wind and a mysterious current that is known to exist in that vicinity helped to throw him upon the beach. Before he had a chance to signal for help the breakers were roaring under the stern, and the struck stern first upon the sandy beach.

The point where the Hogan beached was near the foot of M street, just opposite the two big wireless telegraph masts. When the schooner struck at 6 o'clock yesterday morning. When the first rocket was sent up Captain Norman Nelson and a crew from the Golden Gate Life Saving Station, went to the rescue. A line was thrown aboard the schooner and a crew sent aboard. It was soon found that there was no danger, although the breakers were pounding hard against the sides of the vessel.

Members of the life-saving crew stood by all night. Early in the morning lines were put aboard from the two tugs, while several Government vessels stood by to give aid if it became necessary. When it became evident that no assistance outside of that being rendered by the tugs was necessary, the other vessels steamed away. Officers of assistance were made by half a dozen small life ships passing, but none was accepted.

HAMMERSTEIN SUFFERS LOSS.
LONDON, July 15.—The London Grand Opera House concluded its season Saturday night. Oscar Hammerstein, in a speech, said his losses for seven months amounted to \$225,000. He was an enthusiastic musician, however, and the thought of giving up the beautiful edifice and slinking away was an absolute horror. He was going on again in November.

MORRELL TEACHES VALUABLE LESSON AT BELL THEATER

ED. MORRELL, WHO IS LECTURING ON PRISONS AND ALLEGED TORTURES TO BE FOUND INSIDE WALLS.

There was one sermon not delivered from a pulpit, yesterday, yet a valuable preaching for all that. Ed. Morrell told a few things about California prisons to Bell audiences. What he said was worth several sermons of the ordinary kind, for it was illustrated. This is the text Morrell has taken:

"To bring to your attention the crude manner in which justice takes revenge instead of healing the wound, or, in other words, makes a worse criminal out of a man who has done wrong. Instead of helping him to forget his past and, in the future, do right."

It's rather a valuable sermon, and near the kind of illustrating Morrell gives it. He displays a number of the instruments of torture used on the reformatory in the penitentiaries of California and other States. Before he has finished his lecture, the audience has learned that the prisoner who runs afoul of prison rules, or who is convicted of some crime, is subjected to tortures believed to have gone out of existence.

Morrell does more than disclose the secrets of the State's prison. He proves that it is as easy to be right as wrong, and a lot less painful. His act is worth seeing and his lecture worth hearing. There's a deal to be learned from it by youth, who will not gain the knowledge at school.

NOWLAN IN SURPRISE.
Dave Nowlan, added by a "company," whose name is not given, but should be,

scored heavily yesterday, and stands a good chance of doing likewise all week. Nowlan springs a "Surprise" that is worth while, brings her out of the audience onto the stage, where she, the "Surprise," displays a degree of vaudeville talent that makes for success and applause.

Nowlan and the "Surprise" do a burlesque on comic opera that has a lot of cleverness to its credit. The burlesque has been offered to Oaklanders before, but has never been accomplished to more approval from those "in front."

Claims to cleverness are also put forth by the Biel Children, youngsters possessed of good singing voices, an extensive knowledge of stage tricks and lacking the parrot-like enunciation of the usual stage child. The Biels sing numerous songs, chatter a lot of nonsensical stuff and get away with a quantity of applause.

They are at their best in a "tough kid" number that goes well with the crowd. "He's My Pal," once buried, is resurrected and sung well enough to prove its right to exist beyond the allotted number of years.

La Belle Carmen, on the tight rope, is a daring person who accomplishes much on the half-raising order. She dances a "Texas Tommy" in mid-air, which is a feat, admittedly a feat and one appreciated by the audience.

Rice's Saxophone Quartet, composed of P. Ricci, M. Buccelli, A. Cardeo and V. Dracela were awarded applause, yesterday, for a number that needs nigger, but is otherwise good.

BIRDMAN EARL SANDT MANGLED IN PLUNGE

PITTSBURGH, Pa., July 15.—Dropping 100 feet, when his engine stopped running in a gale, Earl Sandt, the Bile aviator, was perhaps fatally injured late yesterday. He is suffering from concussion of the brain, broken ribs, contusions of the body and internal injuries.

The birdman had given a brilliant flight at 9 o'clock and to please the crowd decided to give another at 5 o'clock. Soon after the start it was apparent that Sandt was having a fight to get his machine into the air. After he had flown half a mile, reaching a height of 200 feet, the machine slowed up and died.

The engine stalled and the high wind upset the machine, preventing Sandt from gliding to the ground. He shot downward 100 feet, but succeeded in keeping on top of the machine, thus perhaps saving his life.

DEAD AVIATOR'S BODY IS SENT TO INDIANA

MOUNTAIN VIEW, July 15.—The remains of Victor Morris Smith, the young aviator killed in an exhibition flight at Palo Alto, were shipped yesterday for Evansville, Indiana, the former home of the father, Victor Smith Sr., manager of a large meat packing establishment in San Francisco.

Funeral services were held here yesterday. Both the mother and the father of the young man, who had been prostrated by the accident, were reported to be recovering. Smith held the world's amateur speed record in aviation.

QUARANTINE AGAINST HAVANA.
HAVANA, July 15.—Dr. R. H. von Eador of the United States Marine Hospital service has been informed from Washington that orders have been issued that all passengers from Havana for the United States shall be subject to seven days' detention.

"SHORTY" ROBERTS DIES AT THE AGE OF SIXTY

SAN FRANCISCO, July 15.—"Shorty" Roberts, whose resort on the Great Highway has been for years the rendezvous of horsemen and gamblers and who delighted in barbeques, died last night at the age of 60.

Roberts had been ailing from cirrhosis of the liver, and he knew for some time that his end was approaching. He is survived by a widow and six children and seven daughters, one of whom is married.

Bon Vivant, lover of blooded horses and born boniface, Roberts had for years been one of the picturesque characters in San Francisco. His bears out at the beach, his broiled steaks, his terrapin and his dinners and his bull head barbeques attracted many notable patrons to his resort.

Domnick F. Roberts, as he was christened, was born on the island of Malta and came to San Francisco as a boy of 14 after seeing army service in Tripoli. After an adventurous youth he settled down as a poultry dealer in Front street—a business that he followed for thirty years. He opened his resort on the Great Highway twelve years ago.

DISCOVERS SURE CURE FOR DREAD LOCKJAW

BALTIMORE, July 15.—The recovery of Bernard Myer, a 9-year-old boy, from an attack of lockjaw has increased interest in the method of treatment which was used in the case by Dr. Pearce Kintzing. This is the ninth of a series of lockjaw cases in which Dr. Kintzing and his assistants at the Franklin square hospital have used the treatment with success.

The remedy is a solution of phenol of 10 per cent strength, diluted to suit the cases and administered by hypodermic injections deep into the muscles. The injections are made at intervals of about three hours at the start, with longer intervals as the patient rallies.

A Cure From The Forest

Nature in her wisdom and beneficence has provided, in her great vegetable laboratory, the forest, a cure for most of the ills and ailments of humanity. Wood and herbs have perfected the compounding of these botanical medicines and placed them at our disposal. We rely upon them first because of their ability in curing disease, and next because we can use them with the confidence that such remedies do not injure the system. Among the best of these remedies from the forest is S. S. S., a medicine made entirely of roots, herbs and bark. It does not contain a particle of harmful mineral. S. S. S. cures Rheumatism, Catarrh, Sores and Ulcers, Scrofula, Malaria, Skin Diseases, Contagious Blood Poison and all other diseases dependent on impure blood. As a tonic S. S. S. builds up the system by supplying a sufficient amount of vigor and nourishment to the body. S. S. S. always cures without leaving any unpleasant or injurious effects. Book on the blood and any medical advice free.

HOPED FOR PEACH; PICKING CHERRIES

Alas! Count Von Pach, the Heiress-Hunter, Goes to Work at Suisun.

His dreams of an advantageous match, whereby he should sweep royal German blood for yellow American gold, richly shattered, the Count Aurel R. von Pach has gone to work.

On the sunny plains of Suisun he is picking cherries. A short while ago he was living at 2012 East Twenty-first street, Oakland, waiting for the American heiress, possibly a beauty, culture and a desire to be known as the wife of a descendant of an old German family.

She did not appear. The Count has advertised. He has written numerous letters—quite vain. He was forced to seek work.

He read of Miss Arlene Parsons, San Mateo's favorite. He petitioned her for work for himself and his two cousins. Miss Parsons had no employment to offer. Inquiries at his residence yesterday elicited the information that the Count was picking fruit for a man named Davidson at Suisun. He has been gone about one week. It is expected that he will return next month with replenished exchequer, to resume the search for the heiress.

Count von Pach claims to be a descendant of an Austrian family which has traced its ancestry back for more than nine centuries. Among his ancestors he lists kings, princes and famous admirals who have led the German fleets.

He sent word to his Austrian home last month to send on pictures of the ancestral homes and undated proofs that he, Aurel R. von Pach, is a lineal descendant of that family. With these documents he hopes to find the heiress who will marry him, furnish the money to place the von Pach's on their old footing and rehabilitate the ancestral castle.

With the Count are his two comely cousins, the Misses Elsa and Taaga Leuwh. They, too, would look with favor upon handsome American suitors whose bankbooks show evidence of wealth and who personally possess the refinement necessary for an introduction into the exclusive von Pach family.

ELOPERS TO BRAVE PARENTAL WRATH

Joseph M. Ryan and Former Dolores Osio Going Home for Blessing.

SAN FRANCISCO, July 15.—Parental forgiveness has not come as quickly to Mr. and Mrs. Joseph M. Ryan, the latter being Dolores Osio, who eloped from Monterey Friday, married and came to San Francisco for a brief honeymoon, as they hoped for. Ryan tried to get his young wife's father, Antonio Osio, on the telephone yesterday, but was unsuccessful. He then called up the grandmother's residence, where his grandmother, who speaks only Spanish, "hung up" on him before he could call Mrs. Ryan to the telephone.

When seen yesterday the young bride was smiling and vivacious and seemed to take her husband's troubles as a joke. Both have decided that the bride's relatives will just have to receive them whether they want to do so or not, and are leaving for Monterey today to present their appeal in person.

Mrs. Ryan is recalling with much glee how her husband asked her on the beach at Del Monte at 5:30 o'clock Friday if she thought they could make the 6:05 train for San Francisco, how she said "yes" and fled to her home to make out the route. Ryan says he has the girl and the rest does not matter.

ROOSEVELT READY FOR FIRST CAMPAIGN TRIP

OYSTER BAY, N. Y., July 15.—Colonel Roosevelt has decided to make the campaign trip to Michigan, Kansas and Iowa, which he has been under consideration for several days. He said he had begun work on a number of speeches which he would deliver before the opening of the National Progressive convention in Chicago.

He will sail on the ship to Jackson, Mich., to speak on Saturday on account of the pressure of his work," said the colonel. He had been asked to speak before the Michigan state convention of the Progressive party. He said he would remain in Oyster Bay all this week. Some time next week, according to the plans, he will start westward.

TRACT FOR COLONY IS SOUGHT IN VALLEY

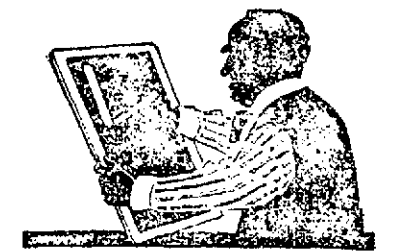

SACRAMENTO, July 15.—Representing a number of local capitalists, Mr. Montgomery of that city has been in Sacramento for a week in consultation with local land owners with a view of purchasing a 20,000-acre tract in the Sacramento valley for colonization purposes. He is consulting with Alden Anderson, and as a result he is investigating several large tracts in this section. The syndicate particularly desires irrigated lands. Many middle West and Eastern farmers still whose the syndicate is in touch prefer to make California their future home rather than settle on tracts in other states where the syndicate has large holdings.

PRINCE OF BRAGANZA SOUGHT BY COLLECTORS

LONDON, July 15.—A curious situation has arisen in regard to Prince Miguel of Braganza, who married Miss Anne Stewart, whose mother, Mrs. Rhineclaffer Stewart, married James Henry Smith after her divorce.

At the beginning of the week there arrived in London legal representatives of a Vienna nobleman, who represents assistance of the Scottish court in recovering the wardenship of the Prince. They were armed with various formidable looking documents, which they explained to the British officials consisted of judgments, pronounced by the Austrian courts, condemning the Prince to pay a certain nobleman the sum of £50,000.

LOYD GEORGE ATTACKED.
LONDON, July 15.—Chancellor Lloyd George was assaulted by a man sufficed while he was entering the House of Commons, South London, where he made a speech Saturday. A man suddenly bolted up from behind a pillar and gave the chancellor a violent buffet, which fell him to the ground. The man was arrested. Mr. Lloyd George was not injured.

"THE HAIRS OF YOUR HEAD ARE NUMBERED"

There is a great deal of truth in the old saying. Roots die, vitality gives out. The hair begins to turn grey.

This is particularly unfortunate as we are all living in an age when to LOOK young means to fill the YOUNG and IMPORTANT positions. Old logic goes to the background. If you should begin to chalk down every day of your life, the exact number of hairs that turn grey, you would be surprised and soon learn that "The Grey Hairs of Premature Old Age" come on very quickly, if you neglect them.

TOMMY-TEDDY HOUSE IS FOUND

Columbia Boasts a Mansion Where Wilson and T. R. Played as Boys.

COLUMBIA, S. C., July 15.—The handsome old colonial dwelling at the corner of Bland and Dickens streets, this city, hitherto known as the "old Howe house," has become an object of great interest since it was made known that two presidential candidates—Woodrow Wilson and Theodore Roosevelt—had played about it in their boyhood. This fact has caused the old house to be nicknamed "the Tommy-Teddy house." It also develops that Wilson and Roosevelt are related by marriage.

The mansion was built by Dr. George Howe, an intimate friend and colleague of the late President Lincoln. Dr. Howe, a summary of Dr. Joseph Wilson, father of the democratic candidate.

"Tommy" Wilson, as he was then familiarly known, frequently visited the Howe residence, and his sister, Annie Josephine Wilson, was married to Dr. George Howe, Jr., son of his father's friend, and became mistress of the old mansion.

Roosevelt's connection with the same house is also a matter of record. He was a cousin of Mrs. George Howe, Sr., and a frequent week-end visitor. After her marriage she brought her young son, Theodore, to the Howe home, and the occasion was a memorable one, according to those who remember it.

SLASHES AFFINITY OF ERRANT WIFE

Rigbuilder Who Dragged His Spouse Through Streets Also in Hospital.

COALINGA, Cal., July 15.—A. K. Pickering, the rigbuilder who dragged his half-clad wife through the streets here a year ago, proclaiming her infidelity publicly, lies in a hospital as the result of a cutting from a knife.

Pickering said that he warned his wife and Greenwell to keep apart a short time ago. Last night he gave out word that he was going fishing. Later he surprised Greenwell, with whom he fought. Both men received painful cuts.

Greenwell works with O. S. Meyers, the rigger who was shot three times by Pickering in the escapade of last year, when Pickering himself received a bullet wound. Greenwell has a wife and family in Colorado. The wounded pair are in custody, although no charges have yet been filed.

FOOTBALL STAR SENDS BANDITS TO HOSPITAL

BEMIDJI, Minn., July 15.—Just about eight years ago C. R. Sanborn plowed his way through many lines of opponents of the Minnesota football team. Saturday night he played his way through two highwaymen, and when the latter woke up in the hospital they were certain that the Racine cyclone had extended its way into Minnesota. Sanborn is a physician here.

The affair started when Charles Fleming, a one-armed man at Bemidji, broke the only arm he had left by falling over a stump late in the afternoon. Dr. Sanborn was called and as he started from town in his automobile two men asking for a ride were accommodated. Near Bemidji they demanded of him his valuables. He alighted to obey, but as the first holdup man laid his hand on the doctor made a flying tackle and laid him out.

DEER HUNTER FAILS TO AWAKEN FROM SLEEP

SAN JOSE, July 15.—R. B. Nickerson, member of a San Francisco hunting party, is dead at the California manganese mine in the mountains twenty-five miles east of Mount Hamilton, and Deputy Coroner H. A. Blanchard is on the way to the mine to make an investigation. Only meager details have been telephoned to the local authorities, but it is supposed that Nickerson's death was due to heart failure. There was no attending physician. A justice of the peace accompanied Blanchard.

Nickerson and several other San Franciscans had been hunting deer Saturday night they put up at the mine, and yesterday morning, when they awoke, Nickerson was found dead. Although the members of the party insisted that it was heart failure, one of their number, according to word telephoned here, demanded an immediate official investigation. None of the names were learned at the coroner's office. That of Nickerson, and it was found impossible to get his San Francisco address. The country in which the party is stopping is almost inaccessible and the deputy coroner will not return to this city until tomorrow morning.

CITIZENSHIP DENIED.

SEATTLE, July 15.—Charles Krantz, a former member of the colony of anarchists at Home, near Tacoma, was denied citizenship by United States District Judge Edward E. Cushman. Krantz was one of the members of the colony did not believe in organized government and did not respect the law. Krantz's application was denied with prejudice.

MISS LILLIAN KROEGER and her sister, Miss Hazel Kroeger, will be married on the evening of Wednesday, July 25, at the Kroeger family home at Vernon and Perry streets.

The bride-to-be is the daughter of Mr. and Mrs. Claus Kroeger, and has many friends here to whom the news of her approaching wedding will come as a surprise. The bride party has been chosen, and consists of Miss Hazel Kroeger as maid of honor, Miss Louise and Miss Anne Kroeger as bridesmaids, while Miss Helen Kroeger will be flower girl, and Miss Gwendolyn Grenfield will be the ring-bearer.

The dominant color note will be white and pink. The bride gown will be ivory satin lace trimmed, and worn with the customary wedding veil. Miss Hazel Kroeger will wear pale pink messaline and the bridesmaids will wear white messaline over pink satin.

Adolph Kroeger is to be best man for the occasion. After an elaborate wedding supper the couple will leave on an extended bridal tour which will include the larger Eastern cities.

MRS. EDGAR JONES RETURNS.

Mrs. Edgar Jones and her niece, Miss Virginia Walsh, have returned from a pleasurable trip to Astoria, Oregon. Mr. and Mrs. Jones and Miss Walsh leave next week for Los Angeles by automobile.

LEVE-RUBIN NUPTIALS.

The wedding of Miss Alexandrine Sonia Leve and Isaac R. Rubin took place yesterday afternoon at the Key Biscayne Inn and was unusually handsome in all the appointments. Pale pink roses and feathery greens formed the background for the ceremony, which was performed by the Rev. Dr. M. S. Levy.

RETURNS TO ENGLAND.

Miss Corinne Walsh, who has been visiting Miss Anna B. Rubin for the past six months, has returned to her home in Berkshire, England.

SUMMER SOJOURNERS.

Miss Clara Bon, with her parents, is en route to Yellowstone Park. They will spend six days in the national park and return via Salt Lake City.

Mrs. William H. Johnson of Austin, Tex., is expected to arrive this week for her annual visit to her father, Stephen T. Gage.

Miss Christa Taft is spending a few days at the Hotel Volcan in New York before her departure for Europe. Miss Helen Noble leaves tomorrow for a trip east. She will visit in Denver, Minneapolis, Sioux City and Salt Lake City.

ENTERTAIN VISITORS HERE.

Mrs. F. B. Hough of Eleventh avenue has had as her house guests during the past week Mrs. C. W. Landers of O'Brien, Kas., and Mrs. R. W. Slagle of Smith Center, Kas. The guests were state delegates to the recently held convention in San Francisco of the Federated Women's Clubs.

AUGUST WEDDING.

Miss Helen Young and Milton T. Farmer will be married in August at a large church wedding, witnessed by several hundred guests. In the bride party will be Miss Ethel Farmer, maid of honor, Miss Lucy Phillips, Miss Mabel Sadler, Miss Lela McKibben, Miss Beth Cawley, Miss Margaret Witter, and Miss Alice Potterfield, will be the bridesmaids. A group of fraternity brothers will support Farmer.

OCTOBER WEDDING.

Miss Marion Hall, formerly of Alameda, will be an October bride. Her marriage with Frederick Simpson will be an elaborate affair. Miss Hall is the daughter of Mr. and Mrs. George Hall, whose home for many years has been in Alameda. The bride-to-be is a sister of Mrs. Nathaniel Dodge, Mrs. Robert MacFie, Will Hall and James E. Hall.

Nickerson is an Eastern man, who came to the coast several years ago and is connected with an architectural firm.

AT BROOKDALE.

Mr. and Mrs. Herman Knapp and Miss Mary and Miss Priscilla Knapp are touring southern California in their automobile. The latter part of this week they will be the guests of Mrs. Pauline Reed of Long Beach.

HOUSE-GUESTS.

Mr. and Mrs. B. A. F. and Miss B. A. F. are the guests of Mrs. B. A. F. and Miss B. A. F.

WOMEN IN THE NEWS POISON GIRL TO WARD OFF DISGRACE

Idaho Youth Confesses Having Sent Deadly Draught in Candy Box.

BOSE, Idaho, July 15.—Indicted on a charge of first degree murder in having sent poisoned candy through the mails, which caused the death of Miss Lena Speers, daughter of a prominent Shoshone farmer, young Fred Weaver, in jail here yesterday declared again that he sent the poison with no murderous intent, but in an effort to save Miss Speers and her family from disgrace.

A story which has been published to the effect that the boy's sister would appear against him and give damaging evidence greatly distressed him, but he said it was not true.

"My sister will tell the truth, that is all," he said. "I want her to tell the truth. She mailed the candy for me, and there is nothing to be gained by denial. Neither my sister nor any other member of the family will turn against me, and they know that I did not intend to poison Lena. I didn't know how much of the medicine she should have taken. It was not in the candy, but in a bottle put in with the candy. The people who told me about the remedy said you could drink it just like water, so I didn't tell her how much to take. I guess she must have taken all I sent."

Weaver stated that he had several letters from the dead girl to prove that she feared her condition, but that he burned the letters so they would not be read by anyone after he left.

"I am sorry I attempted to leave the country, and I know this is the only serious reason to think I deliberately tried to poison Lena," said Weaver. "I didn't leave because I was afraid of the poison, but because I didn't want any scandal raised for the girl's sake in case her condition should have been discovered."

"This was my motive for leaving, and I could prove this by another girl friend at Boise, but I don't want to bring her name into it. I am willing to face the consequences."

Owing to the prominence of the Speers and Weaver families the case is arousing great interest throughout Idaho.

Fleeing Girls Caught

SAN FRANCISCO, July 15.—Accused of having stolen \$1235 in cash from James McCann, head clerk at the Hotel Rex, 276 Third street, Gladys Gordon and Rosalind Platt, two pretty girls who lived in the hotel, were arrested Saturday night when they were returning to their homes in the city. A telegraphic warrant charging them with grand larceny. The capture of the girls was accomplished through some rapid detective work on the part of Detectives Frank Lord and Andrew McCann, who were detailed to investigate McCann's story. Lord went south today to bring back the prisoners.

McCann, as clerk of the hotel, became acquainted with Miss Gordon while they were stopping in the hotel, he told the detectives. The acquaintance ripened into a close friendship and Miss Gordon introduced Miss Platt. The three then made many trips to various resorts. McCann said, and in a few weeks he spent more than \$1000, most of which went to purchase furs for Miss Gordon.

Early Friday morning they made a tour of the Barbary Coast resorts and when McCann awoke at noon Saturday he discovered that the girls were gone. He called upon the police and reported the loss to the police.

Lord and Gaughan secured good descriptions of the girls and traced them to the railroad depot. They then wired day and night when the train reached Los Angeles they were apprehended. The police there recovered nearly \$1200 of the money, after they had booked the women as fugitives from San Francisco.

Prima Donna Hikes

ALBANY, Ore., July 15.—Mme. Jennie Norrell, the prima donna soprano, late of the Metropolitan Opera Company of New York and Covent Garden, London, and known throughout the world as "the Swedish nightingale," walked two miles on an Oregon road Saturday and then took a flying automobile ride in order to fill her engagement at the Albany Chautauque.

Prof. Herbert Hilkey, violinist, and Mme. Edith Baines-Hilkey, pianist and accompanist, who assist the famous singer in her programs, and Mme. Norrell's manager all traveled with her.

This unique experience was due to a wreck of two gravel cars of a work train on the Oregon Electric. The passenger train on which Mme. Norrell and her company were coming to this city was just behind the wrecked train and could not pass.

It is reported that it would take hours to clear the wreck. Mme. Norrell pluckily declared that she would walk, and set out, followed by her associates. After a tramp of two miles through the dust and heat, the party reached a telephone and ordered an automobile, in which they completed the trip. Norrell's appearance was an hour behind schedule, but she was given an ovation when the story was told to the audience.

Defies Ban

NEWPORT, R. I., July 15.—Mrs. Stuyvesant Fish carried out her plan to stop the dancing ban on the grounds of the Newport Casino. She did not stop, but danced a second time Sunday. But it didn't stop the dance. It merely transferred it to the Casino. The Casino started the strains of "Home, Sweet Home." But the majority of the guests left the Casino grounds. Finally, about 11 o'clock, the Casino closed its doors. The crowd went to their ballroom for a dance, and as the Casino Southern people couldn't stand the heat and the music was taken away. The party danced until nearly 3 o'clock.

Visit Newport

NEWPORT, R. I., July 15.—Miss Edith Brown is back in Newport, after two weeks' absence, and is the guest of Mrs. H. B. Brown, her mother. Miss Brown has been in the city for some time, and is expected to stay here for some time. She is a member of the Newport Casino, and is a very popular figure in the city.

BATHS ARE HEALTHY

By LILLIAN RUSSELL

(Copyright, 1912, Lillian Russell.)

NOTED foreign bacteriologists claim to have made the curious discovery that baths do not cleanse one. In fact, those studious people flatly state that baths make us dirty. They have proved to their own satisfaction that the microbial flora are increased by one-fourth after a bath, and end by concluding that the cleansing of the skin by an ordinary bath is a delusion unless the bath-tub be well washed with clean water, and the person taking the bath be energetically rubbed.

Now where is there a person who makes so light of a bath that he would get into a tub that was not perfectly clean? And is there a person so careless that he would not take a rough towel and energetically rub himself until the blood circulates freely through his veins after a bath? One of the greatest blessings on earth, if not the greatest blessing, is water, both for the invigoration of the weak and the cure of the diseased.

Bathing, from the day of creation to the present, may be a gratification of an instinct common to all living nature, from the cedar and the oak, down to the humble and parasitical moss, by rain, atmospheric vapor and dew, as a moderation of the bath by which dust is removed, insects are destroyed and fluid is furnished by nutrition. Bathing, either by swimming in seas, lakes or rivers or in the more restricted fashion of water collected for the purpose in domestic baths, is of universal adoption. In the present day of civilization no one need go without a bath daily, and a thorough bath that washes away the microbial flora.

Putting on clean linen is as important as the bath. No one need be soiled where there is water and where there is a desire to be clean. I cannot see where the bath is not of the greatest benefit to vegetable, animal and human nature. As the wild birds bathe in the puddles and the primitive Indian mother throws her young babe into the river to swim back to her arms, so nature teaches us all the use of water to cleanse us inside and out.

No scientist can prove that a thorough bath is anything but cleansing. The worthy professor who found more microbes on the subject of his experiment after the bath than before must have given him a homeopathic ducking in a dirty pond. Books have been written upon the proper use of water. The "Watery Regimen" is to prove the relation between water and medicines. Bathing contributes powerfully towards the increase of the public health, and of individual comfort and pleasure. No one need fear to bathe in good pure water. And with all of the lovely salts and ammonias made to purify and scent the water, one need have no fear of microbes. Remember, God placed water in various parts of the world for the benefit of mankind, and he never put the fear of it in the mind of anyone.

Answers to Queries

BABE ROSE AND LEONORA.—I can send you a bleach for the skin, also a skin food for fattening the cheeks and neck. I do not advise liquid powder of any description. On account of lack of space I cannot print these formulas, but will be glad to mail them to you if you will write me again, asking for them, enclosing a stamped, self-addressed envelope.

I like to see girls of 15 wear their hair simply, and think the big bows very becoming. Do not be in a hurry about wearing corsets, and if you are over the average height wear your dresses longer. I think shoe-top length is good, also the medium heels.

DISCOURAGED HOUSEWIFE.—If your flesh is getting "baggy" you have evidently been using too vigorous massage. The movements should be light and gentle always.

On account of lack of space I cannot print the full instructions in facial massage, but I will be pleased to mail them to you if you will write me again, asking for them, enclosing a stamped, self-addressed envelope. I will also be pleased to send you, if you ask for it, a skin food which I think is superior to any that you can buy. It will fill out the hollows in your face and build up the tissues.

The scalp massage directions are very beneficial for premature whitening of the locks, and I will be glad to send them to you.

DAISY H.—I would advise you to get an eyebrow pencil for darkening the eyebrows. You can get them at any drug store. Mascara also is good. It is a sort of water color. I cannot recommend a paint to you, but there are plenty of good ones on the market. I prefer the process paint. I cannot give you any information about the article you mention, as I know nothing about it. However, if it agrees with your skin there is no reason why you should not use it. I shall be glad to send you a blank for the face if you will send me a stamped, addressed envelope.

D. K.—The little "white bumps" you speak of are called whiteheads or acne. They can be removed, and it can be done without leaving a scar. Rub the face in warm water, then open each whitehead with a fine needle which has been sterilized by dropping it in boiling water. Press or prick out the hardened mass and then bathe the empty sack of the gland in peroxide of hydrogen.

OAKLAND'S BOYS AND GIRLS

CAMP FIRE GIRLS TAKE REDWOOD TREE AS EMBLEM

MEMBERS OF THE BASEBALL TEAM OF FRUITVALE SCHOOL. FLAGPOUND NO. 3, WHO ARE LEAVING FOR FAST GAMES.

The Camp Fire girls at Fruitvale No. 3 playground have chosen for their name the Redwood Camp Fire Girls, as their emblem. The first emblem was a redwood tree, which they will use as their emblem, appearing in their songs and stories as a symbol of strength and greatness. The next trip of the Redwood Camp Fire Girls will be to the Playhouse in the Piedmont hills. Here they will prepare a supper, sing the songs of the Camp Fire Girls and join in their own songs.

The girls of the Redwood camp are as follows: Virginia Fletcher, manager; Virginia Fletcher, Helen Carter, Mabel Walker, Lettie Dene, Doris Lanthorn, Eunice Grimes, Louise Hurley, Margaret Reilly, and Mary. The girls are very active and are very popular in the neighborhood.

completely blocked all attempts to score. The big run-getters for Melrose were Gerry and Alameda. The game ended 3 to 4 in favor of Melrose. Following is the lineup of the two teams:

Melrose—Rattazzi, left field; Repp, shortstop; Gerry, first base; Alameda, third base; Russett, catcher; Brennan, pitcher; Berman, second base; Gerson, center field; Rattazzi, pitcher, right field.

De Fremery—Hynes, left field; Light, first base; Berman, pitcher; Dooley, right field; Reed, left field; Mason, catcher; Williams, center field.

The game on Thursday afternoon between the Oaks and White Sox was what might well be termed a thriller. The teams lined up as follows:

Oaks—Burns, first base; McCrea, shortstop; Aron, center field; Berman, pitcher; Gallian, second base; Downey, pitcher; Scozzafava, right field; Lightner, third base; Clarke, left field.

White Sox—Berman, first base; Clarke, center field; Healy, catcher; Scozzafava, third base; Bertola, shortstop; Donnick, right field; Tint, pitcher; C. R. Carter, second base; Kaffony, left field.

In the afternoon the Rocket and the Baby Giants crossed bats in one of the hardest fought and closest contests seen on the local diamond in a long time. It was tie for tie from start to finish. First one side was ahead and then the other. Day was replaced in the box by Batrall, who pitched a rattling game. In the end, the Baby Giants won by a score of 3 to 1.

The girls of Garfield and Bushrod clashed in a very exciting game of basketball on the former's grounds. The contest lasted for an hour and the first half in favor of Bushrod. In the second half, however, the tide began to turn in favor of Garfield, and when the game had ended the tally stood 23 to 20 in favor of Garfield. The members of the two teams are as follows:

Garfield—Forwards, Akaiah Saul, captain; Margaret Switzer; centers, Anthea Mole, Elsie Cooper; guards, Florence Mole, Elsie Cooper.

Bushrod—Forwards, Edith Williams, captain; Damar Madison; centers, Evelyn Tootle; guard, Margaret Wright; guards, Hazel Nesbit, Dixie Cole.

On Wednesday the girls' club at De Fremery park went on an outing trip to Surf Beach. The girls had a very enjoyable time. This is only one of the many trips planned on for the summer. The members of the party who took the trip are as follows: Margaret Wright, Travers, Schwartz, Elsie Lancel, Helen Tan, Helen Cole, Eleanor Kopp, Doris Seaman, and others.

THE WEALTHIEST BOYS' BAND GIVEN BOY BECOMES COMMODORE WELCOME AT STOCKTON

NEWPORT, July 15.—Master John Nicholas Brown, the "richest boy in the world," who shares with Master William Henry Vanderbilt the name of being the best mannered youngster in the cottage settlement of Newport, is now Commodore of the Newport Yacht Club, which has a membership of two—Vanderbilt and Brown.

The name is derived from the fact that the waters in which they moor their boats is under the shadows of the Pacific mothers' homes in Haildon Hill. Mrs. John Nicholas Brown and Mrs. Joseph Brown.

Master Brown was a few days since presented with a yacht, a fifteen-footer called the Mariner, bought from Frederick Cunningham of Boston.

Master Brown is a very young man, and the boat is millions to him, which has a crew of two men.

Master William Henry Vanderbilt owns the fifteen-footer Caprice, named after his mother's thirty-footer, Caprice, which she sold last year after sailing it so well for three seasons.

YOUTH IS VICTIM OF MYSTERIOUS ACCIDENT.

A young boy, 10 years old, a blacksmith's son, was found in a local garage last night dying from internal injuries and burns which he received in a mysterious manner from an electric truck. He died while being carried to a hospital.

It is believed that Thursday got into the seat of the truck, which had been "tricked" for running, exposing the motor, and started to drive it across the street, but he could not stop the machine and it ran out, failing to stop.

GARFIELD BASKETBALL TEAM WINS FAST GAME

In one of the most exciting basketball games of the year the girls of Garfield school playground defeated the Bushrod park playground team by a score of 23 to 20. At the end of the first half of the contest the winning signal was given.

The Chamber of Commerce and the merchants of the 500 block on Main street sent the boys a quantity of fresh assorted fruit.

The team's line up follows: Garfield—Forwards, Akaiah Saul, captain; Margaret Switzer; centers, Anthea Mole, Elsie Cooper; guards, Florence Mole, Elsie Cooper.

Bushrod—Forwards, Edith Williams, captain; Damar Madison; centers, Evelyn Tootle; guard, Margaret Wright; guards, Hazel Nesbit, Dixie Cole.

ALAMEDA

DOMESTIC DRAMA

A TANGLED WEB

Peculiar Situation is Revealed In the Lives of Martinez Couples.

MARTINEZ, July 15.—Suitable color for an up-to-date novel has been brought to light here, with the uncovering of one of the most remarkable cases of duplicity known in years. The factors of the case are Frank Hayball and his wife, Burdell Johnson, an employee of Hayball, and Mr. J. M. of Mrs. Hayball's sister. The case was made public through the story being given out by Hayball.

Hayball and his wife moved to Martinez about a year ago, and opened what is known as the City bakery. They took Johnson, who is not much more than a boy, into their employ, giving him a room in the house.

By way of expressing his gratitude, it is alleged, Johnson paid attentions to Mrs. Hayball, thereby winning her affection from her husband.

Hayball was apparently in ignorance of this. About this time, Mrs. Hayball induced her sister, Mrs. Merritt, who lives in Australia, to come and make her home with her.

Johnson, who had returned to Martinez, Hayball became acquainted with the actions of young Johnson and his wife, and quietly divorced her.

On the arrival of Mrs. Merritt, it is said that Mrs. Halball and Johnson went to San Francisco and were married. Mrs. Johnson securing the license in the name of Mrs. Halball.

Johnson and his wife returned to Martinez and were received into Hayball's home. Johnson still retained his position in Hayball's bakery. Mrs. Halball

the role of Johnson's wife, which she did, posing as Mrs. Johnson for four months.

Not until a month ago, however, did Mrs. Merritt realize the grave position she was in. She then went to Mrs. Johnson, and told her that she would have to get the affair straightened out. It was then that Johnson and his wife decided to leave Martinez. Marshall

business, did not cease to care for his former wife, and determined to spare her the humility of an exposition.

Not until the Johnsons were ready to leave the city did Hayball realize just what his position in the public eye would

been living in his home, under the name of Mrs. Johnson. Four weeks ago, at the best dissolution of the uncomfortable situation of both Mrs. Merritt and Hayball, he went to San Francisco, obtained a license and was married, returning to make their home in Martinez.

A 'STRAWBERRY JAG' IS THE LATEST OF SPREEES

LONDON, July 15.—The strawberry jag is the latest. Recently tourists have been refused passage on the fruit steamers which carry the

nel from Plougastel. The shipowners say that the fumes given off by large quantities of the berries are quite as overpowering as liberal indulgence in whisky and beer.

REJECTED SUITOR
COMMITTS SUICIDE

NEW ORLEANS, La., July 15.—Twelve hours after Elsie Russell, 14 years old, eloped and married Charles Antonio Lawrence Blanchard, 17, a rejected suitor, killed himself.

In his pocket was found a farewell note from the girl indicating she loved him some, but not as much as she did Antonio.

San Francisco Society

It will be an impressive ceremony, taking place Wednesday evening at 8 o'clock.

Miss Marian Newhall will be the matron of honor and Miss Sara Cunningham and Miss Louise Boyd will be the only bridesmaids.

The best man and the groomsmen will be naval officers who were classmates of the groom at Annapolis.

After the church service there will be a reception at the home of the bride's parents, Mr. and Mrs. James Potter Lang, home, in Pacific avenue.

Courtland Parker is coming out from New Jersey to be his brother's best man at this interesting occasion.

Another wedding of equal interest will take place in September, when Miss Mary Ann Miller and Bernard Ford will pluck their troth. They have selected Wednesday, September 11, for the all-important

There will be several bridesmaids and ushers and a large reception will be held at the C. O. G. Millers' home.

Philip Wooster and the Misses Orrie and Edith Wooster will be glad to hear that they are contemplating coming west for several months. Most of their time was spent in San Mateo, where they have several relatives.

Miss Orrie Wooster was here last winter with her cousin, Mrs. Gus Spreckel, who gave several entertainments for her at the Fairmont Hotel.

Among other Californians who are homeward bound are Mrs. William C. Henshaw, Miss Florence Henshaw, and

Mr. and Mrs. Harry Chickering. On the arrival later in the month they will spend a few days in Oakland before journeying on to Santa Barbara to enjoy the late season at the Potter.

Mr. and Mrs. William B. Tubbs, Mr. and Mrs. Edward Eyre gave one of the informal dances of the week at the home of Mrs. Tubbs.

Miss Eyre, who will not make her debut but for two or three years, has also to

a luncheon for her and her aunt. Mr. Elwood Hays, who asked nearly half a hundred young folks to meet her at an out-of-door luncheon in the grounds.

LEGAL NOTICES

**Important Notice to
Voters of Registration**

Office of John P. Cook, County
Clerk, Oakland, Alameda
County, California.

Once with the provisions of section 1904 of the Political Code of the State of California, and the provisions of the Political Code of the State of Alameda County, voters must apply for registration at least 30 days before the election. In order to be able to vote at the primary election to be held on September 5, 1912, and for the general election to be held on the 5th day of November, 1912.

Owing to the fact that there is no provision in the law granting assistance to the County Clerk in the registration work, it is important that voters should apply for registration at once, in order to expedite the work.

Such registration began on the first day of January and will be in progress at all times until August 31, 1912, for the purpose of enabling voters to qualify for the primary election to be held on September 5, 1912, and continue until the first day of May, 1913, for the purpose of enabling voters to qualify for the general election to be held on the 5th day of November, 1912.

The attention of voters is especially directed to the fact that the County Clerk

voters must have registered this year in order to join in the signing of any certificate of nomination in behalf of any candidates for public office to be voted for at the primary election, to be held September 3d, 1912.

Attention is further directed to the following provisions of the Political Code of the State of California, relating to registration:

WOMEN TO GIVE POLITICAL LUNCH

Good Government Club to Hold
Meeting Thursday at
the Ebell.

Preparations are being pushed rapidly forward for the elaborate luncheon to be given on Thursday by the Women's Good Government Club of this city. Nearly 200 guests are expected to be present at the luncheon which is to be given in the large banquet hall of the Ebell Club. Some of the best speakers in the city are expected to be present and to contribute to the luncheon program of exercises. The luncheon is not an invitational affair, as it is a matter relating to the public welfare. All women interested are welcome as guests of the Good Government Club. All who wish to be present are requested to obtain their seats early, as applications will be served in the order in which they apply. The charge for the luncheon is the nominal sum of 75 cents, and cards may be reserved by telephone to the headquarters of the Good Government Club, First National Bank building, or guests may call there personally and make reservations for themselves and friends.

The decorations are to be unusually elaborate for this anti-recess luncheon. A large receiving party, consisting of many prominent women of the city, will be announced.

CHINESE BOY SHOTS SACRAMENTO BARTENDER

SACRAMENTO, July 15.—Following a bitter argument which broke down, Jack O'Neil, a bartender at a saloon on J street, formerly employed at the State Printing Office, was shot, yesterday, and injured by Shao Tai, a 17-year-old Chinese boy employed at the saloon as a porter.

After firing one shot from a revolver which inflicted a flesh wound in O'Neil's left thigh, the Chinese ran to his room on Third street, where he was captured by a squad of police. O'Neil was treated at the receiving hospital and later removed to the county hospital before entering O'Neil's thigh, the bullet passed through the flesh of his left index finger. O'Neil had placed his hand over his leg to protect himself.

TWO ARE VICTIMS OF AUTO CRASHES

San Francisco Girl and Man
Killed in Separate
Accidents.

SAN FRANCISCO, July 15.—Two San Franciscans a girl and a man were killed and several other residents of this city were seriously injured in two automobile accidents which occurred yesterday afternoon one near Los Gatos and the other near Dillon's Point in Marin county. Both were caused by faulty roads.

The dead Miss Eldrid Dickson 11 years old 1244 Grove street, Paul H. Keller, 38 1/2 Ash avenue.

The injured Miss Vivian Church 544 Steiner street Mrs. Paul H. Keller and baby Miss Thelma Kratz, Miss Emma Kratz Emmett Kratz, S. L. Stice, Two Rocks Marin county, Miss S. L. Stice and two sons.

Miss Thelma Kratz, who was in the Los Gatos crash, was seriously hurt. Miss Dickson's skull was fractured and she died soon after Stice, who was driving the machine home from a visit to the Coast, was injured, and his wife and two sons were badly shaken up and bruised. Miss Church was not seriously hurt.

The two girls had been spending their vacation in Two Rocks and were the guests of the Stices. The party had been on a picnic at Dillon's Beach and late in the afternoon were returning home. The large touring automobile in which they were riding struck a ditch and all were thrown out. Stice attempted to throw the clutch from the high to the low gear in order to take the incline with greater ease.

The clutch failed to work smoothly. The car came to a stop and then started back, and he attempted to use his brake, but was too late and the car went over the edge of the road. Three times it turned over before bringing up at the foot of the embankment.

HELP QUICKLY AT HAND.
Machines are constantly passing over the road between Dillon's Beach and Petaluma and a number of travelers were soon lending assistance and removing the wreck of the heavy car from the bodies of those pinned beneath. Miss Dickson was badly mangled and her skull was also fractured. She was placed in an automobile and rushed to Tomales for aid. The effort to have her life was futile, however, and she died on the way to the doctor. The rest of the party were also taken to Tomales where they were treated by Dr. R. A. Graham.

Miss Dickson was the daughter of Mr. and Mrs. William Dickson of this city and was fourteen years of age. Miss Vivian Church, her companion is only slightly injured. She resides at 644 Steiner street. The parents of both girls were notified immediately after the accident.

CAUSED BY BAD ROAD.
The Los Gatos road was caused by the road giving away beneath the weight of the seven-passenger touring car. It occurred on the Bear creek road, about two miles above Los Gatos, shortly after noon yesterday. The road, which is known to automobilists to be one of the most treacherous in California, gave way under the weight of the machine and the party of automobilists plunked down a thirty-foot embankment. The heavy machine plunked the body of Keller beneath it and Miss Thelma Kratz was thrown against a number of jagged rocks.

Keller was badly crushed and died at 11 o'clock last night. It is believed Miss Kratz will live.

FIND FEEDING GROUNDS OF GREAT KING SALMON

TACOMA, Wash., July 15.—The feeding grounds of Alaska salmon, heretofore a mystery, even to David Starr Jordan, the world's greatest expert, have been discovered by Crad Miller, a salmon packer of Ketchikan. After studying for years Miller has succeeded in running the king salmon to their haunts above the Forrester island, sixteen miles west of Dall and Prince of Wales islands. Investigation proves that the king salmon there arrive and head east a back of the ring into the shoals and inlets between the rocky shores, eating them at will. For years the catch of king salmon has been declining. Cannermen pay \$1 each for them. Five hundred fishing boats are now working about Forrester island. Fishermen are making small fortunes. Tents and cabins have been built until the face of the island resembles a tented city. The catch is so enormous that the federal officers in Alaska have intervened to regulate the traffic and prevent the extermination of the fish.

J. R. MOFFAT SERIOUSLY ILL

PORTLAND, Ore., July 15.—J. R. Moffat of San Francisco, a prominent member of the Italian-Swiss colony, is ill at his apartments in the Multnomah Hotel. His condition is considered serious and Mrs. Moffat was summoned from San Francisco, arriving yesterday.

If you are a housewife you cannot reasonably hope to be healthy or beautiful by washing dishes, sweeping and doing housework all day. You must get out into the open air and sunlight. It is to this end that Chamberlain's Tablets are so beneficial. Tablets which should become a healthy habit. For sale by Osgood Bros. Drug Co.

George Evans, who is chocolate-painted and therefore a minstrel man, and who smokes a frayed cigar to prove he is came to town yesterday and put up at the Oakland Orpheum. Much joy along the Elsie. Thick Joy, in fact Evans, who is the "Honey Boy" of minstreldom, was welcomed by two large audiences yesterday. They gave him several minutes of "hand" before he had a chance to open his mouth or take a comedy puff of his cigar. All of which goes to show that it pays to be popular with those who sit out in front.

Evans, as has been stated on several occasions and the billboards, is a minstrel man. He is probably the best of those remaining in the black face business. He has several lines of monologue that you have heard somewhere, some time, but manages to "put them over" in a manner you have encountered nowhere, no time. Evans is best when he monologues, but he sings and they seem to like it. His chatter is along lines that are clean and is surcharged with a degree of wit that is funny or otherwise, according to whether you are a devotee of Isen or have the habit of supplementing habits.

Evans heads this week's bill which means that he will be with Oakland for six days remaining. He has a way of fogging your troubles, which makes him valuable in the world. Twenty minutes of his nonsense is guaranteed—but you've heard about that cure for the blues before.

HIGH CLASS MUSIC.
Running the "Honey Boy" a close second for popularity and class are the Elliott Savonas in one of the best musical acts, the Orpheum has put out. The Savonas are announced on the bill as "A

family of eight instrumentalists presenting the Palace of Orpheus," a prismatic creation of colors. You'll agree with the "prismatic" portion of the sentence. The stage setting is a highly colored and elaborate affair that changes that employed by former musical acts.

The Savonas, however, throw in the "prismatic creation" for good measure. They depend on their music for success and the latter is their in quantity. They produce music on a score of instruments. The extorture from "William Tell" is thrilled over the house in a burst of excellent tunefulness and wonderful execution. Other classics are disposed of in a way calculated to draw the fire of applause for several encores.

Good music, too, is that put forth by the four Lyric Ladies, Oaklanders who have won their spurs on the vaudeville stage. The quartet is composed of Emilie Valette, first tenor, Robert Anselmi, second tenor, Emanuel Porcini, baritone, and Frank Figone, basso. They open with the Soldiers' chorus from Faust, follow with an English ballad and a selection from Brann, and close with Italian melodies.

MOFFAT'S SKETCH.
"The Conquered Red" by Graham Moffat, a force along an order not new, made yesterday's audience happy. The sketch is notable chiefly for its color. Filled with technical faults that are not covered by well-written lines, it moves slowly. "The Conquered Red" needs Americanizing more than anything else.

Ed Wynn stays over to impress the value of his nonsense on the public and the Bowdoin brothers will continue to twist music from their singing accordeons. The five original Piroscuffs, jugglers, are among the newcomers.

TREASURE HUNT IS ON ONCE MORE

Searcher Says He Has a Real
Chart to Cocos Island
Riches.

SEATTLE, Wash., July 15.—In search of the long-sought-for treasure on Cocos Island, Captain Fred Hackett sailed out of port Tuesday morning in the old American bark Hesper. Captain Hackett says he believes firmly that he holds one true chart which will lead him to the riches in the desert island off the coast of Panama.

The captain says he has spent his lifetime savings in buying and fitting the Hesper for the trip. He is taking a mate and four sailors and is carrying with him a hydraulic equipment with which he proposes to dig for the treasure.

Part of the funds for the trip will be obtained by carrying a cargo of lumber from Grays Harbor to Antofagasta, Chile. At Grays Harbor also, several members will be added to the crew this week.

YOUNG SOCIETY BELLE TO BRAVE THE DESERT

LOS ANGELES, July 15.—American young womanhood added another exponent to its long list of athletes who enjoy the strenuous and danger-daring life when Miss Belle J. Brittain, announced at the Hotel Virginia, Long Beach, yesterday her intention to "do China" by the ancient caravan route. The start will be made early next year.

Miss Brittain, who is in her early 20s, is the daughter of the late Colonel N. J. Brittain of San Mateo county. By his will she inherited \$1,000,000 and is an heiress to a fortune that has made her one of the wealthiest in that county of millionaires.

"The question of danger entailed in the crossing of China by caravan does not trouble Miss Brittain. That will be offset in a slight degree by the presence of a Chinese captain, as advised in the use of firearms as herself, and by a very great extent by the companionship of several young men of heroic proportions and, of course, for convenience's sake, a chaperon will go along.

"WILLIAM TELL" KILLED.
ALTOONA, Pa., July 15.—While alone in their home near Dougherty's mine about three miles north of Altoona, today William Tell, aged 8, a miner's son, had his head blown off with a shotgun in the hands of his brother, George, aged 5. They were playing "William Tell" with a baseball for an apple, but they did not know the gun was loaded.

HOT WEATHER CONTINUES.
KANSAS CITY, Mo., July 15.—Continued high temperatures were the rule Sunday over Kansas and western Missouri. Abilene and other towns in central Kansas report 104 degrees while at St. Louis and other Missouri points a maximum of 94 was recorded. At Kansas City 93 was reached, one degree warmer than on Saturday.

BRITISH NAVY ON WANE, SAYS PEER

Sir Gilbert Parker in Interview
Urges United States-
England Bond.

LONDON, July 15.—Sir Gilbert Parker, M. P., in an interview in the "Budget" respecting the significance of the visit of Premier Borden and other Canadian ministers to England at the present time and what was likely to come of it, said:

"No embassy in the long history of nations had ever so great a concern or a greater consequence. The problem of the twentieth century is whether the position of the Anglo-Saxon shall be altered in the readjustment of the national power and territorial aggregation, the people of the Anglo-Saxon world shall continue to be in the same ratio of power to the whole."

"It is indispensable for the welfare of civilization that we of the British Empire shall succeed in holding together our scattered dominions."

"The various peoples of the British Empire represent in their influence certain well-defined characteristics and these are all in line with progress. We are neither the most intellectual nor the most scientific race in the world, but if we are permitted to include the United States in our bond of civilization we are the most progressive and the most progressive section of the human race."

Sir Gilbert also pointed to the great strides Socialism has made in England. He was asked:

"What has all this to do with the visit of Borden and his colleagues to England?"

NAVAL BOND STRONG.
"Only this," he answered. "The British Empire has been held together by naval power joined to the individual loyalty of each portion of the empire. For generations the supremacy of England was never questioned, the twentieth century sees this supremacy challenged and naval power is the first problem to be solved if the British Empire is to remain intact."

"If the naval problem can be solved so far as Canada and her share in the naval defense is concerned, the whole question of the union of the British Empire can be settled once for all. Canada has racial difficulties, which happily have been growing less from year to year, but if a naval policy can be produced which will have the assent of both the English and the French in Canada, the way will open out for the vast confederation of an operating dominion."

"To serve for the British race the same ratio of strength to the strength of the world, the same element of progress in the movements of the world that the United Kingdom had with the rest of the world at the beginning of the twentieth century."

"Of see a greater federation still than the federation of the British Empire, it is the federation of all English-speaking peoples."

DENIES MISSIONARIES IMPLICATED IN PLOT

CHATTANOOGA, N. Y., July 15.—Episcopal bishop for Japan and Korea, said today that no missionaries had been implicated in the alleged plot on the life of the Japanese governor-general of Korea. Bishop Harrie said the missionaries from the first have been loyal to the government and taught the Christian Koreans the same loyalty.

I would advise all Americans to withhold their judgment against the missionaries until the end of the trial," said Bishop Harrie. "It is in the hands of an impartial court and justice will be done. I am confident the case will be tried on the evidence only and that all charges against the missionaries will prove false."

DENEEN HESITATES TO NAME SENATOR

Governor of Illinois Doubts
Right to Appoint Successor
of Lorimer.

CHICAGO, July 15.—Governor Deneen is uncertain as to whether he has power to appoint a successor to William Lorimer. The issue that bothers the State executive is this:

Lorimer's seat was declared vacant. It was held that his election was the result of corruption, and because of this the situation technically would be that he never rightfully had possession of that seat.

If such a view of the situation be taken, the Governor feels that his right to appoint a successor might be questioned. He will confer with the Attorney-General in an effort to learn whether he can make the appointment, or whether he must wait for the legislature to make the selection.

Former Senator Albert J. Hopkins will demand the seat. He bases his claims as being entitled to the seat on the theory that he was the choice of the people in 1908.

"Our glorious shattered standard raised, we'll march to the battle line, we'll fight for the old flag, we'll fight for the old flag, we'll fight for the old flag."

PANAMA'S PRESIDENTIAL ELECTION IS ORDERLY

PANAMA, July 15.—The Presidential elections held Sunday throughout the republic were conducted in an orderly manner. All the electors belonged to the Porras party, which ensures the unanimous election of Dr. Bollaños Porras on August 30, when the electoral assembly convenes.

Pedro Diaz, convinced of the impossibility of election, withdrew at the last moment.
